Cards

A card is a flexible and extensible content container. It includes options for headers and footers, a wide variety of content, contextual background colors, and powerful display options. If you're familiar with Bootstrap 3, cards replace our old panels, wells, and thumbnails. Similar functionality

B <https://getbootstrap.com/docs/5.0/components/card/>

```

Input group

Easily extend form controls by adding text, buttons, or button groups on either side of textual inputs, custom selects, and custom file inputs. Place one add-on or button on either side of an input. You may also place one on both sides of an input. Remember to place s outside the input

<https://getbootstrap.com/docs/5.0/forms/input-group/>
